UNVEILING THE MOCHARIS STORY

TRANSFORMING HEALTHCARE THROUGH
INNOVATION AND DESIGN

Mocharis connects patients to life-saving care within seconds when emergencies strike. Beyond crisis response, we sustain health digitally, equip hospitals with advanced medical solutions, and through Anterior Design, transform clinical and private spaces into luxury sanctuaries built for healing.

COMPANY

OUR COMPANY INTRODUCTION

Nigeria's healthcare system has long struggled under the weight of delayed emergency responses, overstretched facilities, and disconnected patient care. Lives are lost not always from the absence of medicine, but from the absence of speed, coordination, and access. Mocharis was born to change that — an intelligent, integrated healthcare ecosystem bridging the gap between crisis and care, technology and humanity, clinical precision and healing design. Through strategic partnerships and innovation, we create a resilient healthcare solution ecosystem.

WHO WE ARE?

Mocharis is an integrated healthcare ecosystem combining emergency dispatch intelligence, digital health management, advanced medical equipment solutions, and luxury healing environment design under one unified platform.

- Innovation Driven
- Healthcare Focused
- Design Excellence
- Technology Enabled
- Emergency Solutions
- Partnership Powered

WHAT WE DO?

We connect patients to life-saving care, sustain long-term wellness, and transform healing environments.

- ✓ Rapid emergency response, medical equipment supply and maintenance.
- ✓ Healthcare interiors, space optimization, and luxury facility transformation.

ABOUT OUR COMPANY

In a country where emergencies too often go unanswered, Mocharis is rewriting the story of healthcare. Our intelligent dispatch platform connects stroke victims, trauma patients, and critical emergencies to the nearest equipped facility in real time; saving lives where delays once cost them. Beyond crisis response, we empower patients through digital health management, enabling continuous monitoring and specialist access for chronic conditions. We supply and maintain advanced medical equipment, keeping hospitals operational around the clock. Through Anterior Design, we craft luxury clinical and residential spaces engineered for comfort, confidence, and healing.

OUR MISSION

To save and sustain lives by delivering intelligent emergency dispatch that connects critical patients to equipped facilities in real time, empowering long-term wellness through digital health management, equipping healthcare providers with advanced medical solutions, and transforming clinical and private spaces through Anterior Design into environments that inspire healing, comfort, and lasting wellbeing.

QUALITY DISTINCTION

We deliver exceptional solutions recognized for quality, innovation, and measurable impact across healthcare and engineering projects.

STREAMLINED EXECUTION

From concept to execution, we ensure fast, reliable, and efficient delivery of solutions across healthcare environments.

OUR VISION

To become Nigeria's most trusted healthcare ecosystem – a world where no life is lost to delayed emergency response, no chronic condition goes unmonitored, and every healing environment is designed with intention. We envision a future where intelligent technology, advanced medical solutions, and thoughtful design converge to make exceptional healthcare universally accessible.

OUR SERVICES

In Nigeria, a stroke victim can wait over an hour for help that may never come. Snakebite casualties lose limbs and lives in the time it takes to locate a functional antidote. Overcrowded wards, unavailable specialists, and broken equipment define the reality millions face daily. Mocharis confronts this head-on, intelligently routing emergencies to prepared facilities and rebuilding the infrastructure of care from the inside out. Mocharis doesn't just respond to healthcare's failures; it systematically dismantles them, one service, one patient, one life at a time.

From emergency dispatch to digital chronic care management, medical equipment solutions to healing environment design, every Mocharis service exists to close the gap between a crisis and survival.

CRISIS & HEALTH

When a stroke strikes at midnight, or a farmer collapses from a snakebite miles from the nearest clinic, every second counts. Mocharis, through our digital service, cuts through the chaos by intelligently matching patients to facilities with available beds, specialists, equipments and also provides ongoing digital health management.

- ✓ Emergency Response
- ✓ Clinical Continuity
- ✓ Risk Mitigation
- ✗ Downtime

TECHNICAL & ENGINEERING

At the heart of Mocharis is a commitment to engineering excellence. We provide biomedical equipment procurement, technical assessments, installations, preventive maintenance, and corrective repairs that ensure healthcare technologies operate safely, efficiently, and according to the highest industry standards.

Through our zero-downtime philosophy and network of technical partners, we help healthcare facilities maximize equipment performance, extend asset lifespan, and maintain uninterrupted clinical operations.

- ✓ Equipment Procurement
- ✓ System Installation
- ✓ Maintenance & Repairs
- ✗ Downtime

SPACE & DESIGN

Healing doesn't end at discharge. Mocharis' Anterior Design division transforms hospitals, clinics, and private residences into serene, luxury environments engineered to reduce stress and accelerate recovery because, the spaces where we rest, recover, and live should actively work to keep us well.

- ✓ Space Planning
- ✓ Luxury Interiors
- ✓ Facility Upgrades
- ✗ Inferior Designs

MOCHARIS ECOSYSTEM

SECTOR A: THE GOLDEN HOUR

crisis response, continuity, rapid intervention.

Beyond life-saving emergency dispatch, Mocharis sustains long-term wellness through digital health management by continuously monitoring chronic conditions and connecting patients directly to specialists and mental health professionals, anywhere, anytime.

SECTOR B: SPINE OF THE HOSPITAL

biomedical engineering, equipment, infrastructure, maintenance.

Behind every successful healthcare institution is a network of reliable systems that keep healthcare environments functioning at their best.

Medical equipment installation, maintenance, and optimization.

Reliable systems supporting continuous clinical operations.

“
Three sectors. One mission.
Better healthcare.
Preserved by science and
elevated by art.”

SECTOR B: ARCHITECT OF THE REALM

spatial luxury, healthcare environments, design transformation.

Great healthcare experiences begin long before treatment. Mocharis transforms ideas into functional realities through luxury spatial design, creating environments where comfort and care come together to shape exceptional healthcare experiences.

Luxury healthcare and residential interiors.

Functional spaces enhancing patient and staff experiences

TARGET PARTNERSHIPS

Every transformative healthcare project begins with collaboration. At Mocharis, we actively seek strategic partnerships that unite expertise, innovation, and shared purpose. By connecting healthcare providers, technology leaders, manufacturers, and design specialists, we create integrated solutions that strengthen healthcare infrastructure, elevate patient experiences, and deliver lasting value across Nigeria's evolving healthcare landscape. We actively seek partnerships from:

HEALTH INSTITUTIONS & HOSPITALS

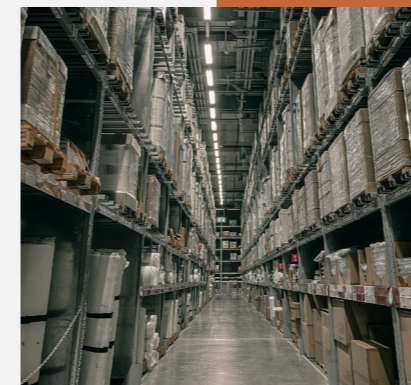

Every patient journey depends on reliable systems and functional environments. We partner with hospitals and healthcare institutions to improve emergency responses, operational efficiency, clinical continuity, and overall healthcare delivery outcomes.

- ✓ Improved Outcomes
- ✓ Clinical Excellence
- ✓ Operational Efficiency
- ✓ Reliable Infrastructure

MEDICAL EQUIPMENT PARTNERS

Mocharis partners with manufacturers and distributors to expand market reach, ensure quality installations, provide technical support, and maximize equipment performance throughout its lifecycle.

- ✓ Market Expansion
- ✓ Technical Support
- ✓ Quality Assurance
- ✓ Lifecycle Management

DESIGN & BUILD PARTNERS

Exceptional environments are built through thoughtful collaboration. We work with premium build material suppliers, interior specialists, furniture partners, e.t.c. to create healthcare and residential spaces that combine functionality, comfort, aesthetics, and lasting value.

- ✓ Design Excellence
- ✓ Premium Finishes
- ✓ Functional Spaces
- ✓ Enhanced Experiences

THE CEO

RADR. OGBU MICHAEL .O. (B.RAD, m.ARN, m.RRBN)

**“HOW YOU LIVE YOUR LIFE
MAY BE THE ONLY BIBLE
SOMEONE EVER READS”**

— RADR. OGBU MICHAEL .O.

At Mocharis, we believe exceptional healthcare is shaped by both precision and experience. From intelligently routing emergency patients to equipped facilities in critical seconds, to digitally monitoring chronic conditions from anywhere then equipping hospitals with cutting-edge medical technology and transforming clinical and residential spaces into luxury healing environments; We deliver care that saves lives today and sustains them tomorrow.
